Project Title: Precision medicine Adaptive Network platform Trial in Hypoxemic acute respiratory failure (PANTHER)	
Research Governance and Integrity Team Reference Number (RGIT):	23SM8523 / 172256
Modification type:	Substantial Modification
Modification number:	SM02
Modification date:	22.06.2026
IRAS Number:	1008743
EudraCT Number:	N/A
Does this amendment substantially change the safety or risk/benefit assessment in which the Trial risk assessment Has been updated?	No

Imperial College London, the sponsor of this trial confirm that your modification has been reviewed and meets the previously issued sponsorship requirements. We are satisfied with the classification of the modification and authorise you to submit this modification to the **REC, MHRA & HRA** as applicable in Modification tool.

Please ensure participating sites are notified of modification and that **REC, MHRA & HRA** approvals are sent to participating sites R&D department as soon as possible.

You must NOT implement this modification until you receive any required confirmation or acknowledgments from site R&D.

Yours sincerely
RGIT CTIMP Team
